SPRINGFIELD STREET DIRECTORY.

The Street Directory gives the location of each street, and shows what other streets, avenues or places run from or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know at what part of Main street No. 310 comes, turn to Main street, and you find that Worthington street intersects at 298, right side, and Bridge street at No. 340, showing that No. 310 comes on the right side of Main street between Worthington and Bridge.

MARKS' PATENT ARTIFICIAL LIMBS

WITH RUBBER HANDS AND FEET

Are Natural in Action, Noiseless in Motion, and the Most Durable in Construction.

It is not unusual to see a farmer working in the fields with an artificial leg, or an engineer with hand on the throttle, or a conductor, brakeman, fireman, carpenter, mason, miner, blacksmith, in fact men of every vocation, wearing one or two artificial legs, with rubber feet of Marks' Patents, performing as much labor as men in possession of all their natural members, earning the same wages; in fact, experiencing little or no inconvenience.

Over 14,000 in use, scattered in all parts of the world. Eminent surgeons and competent judges commend the Rubber Foot and Hand for their many advantages. At every industrial exhibition where exhibited they have received the highest awards. They are endorsed and purchased by the United States and foreign governments. A treatise, containing 430 pages, with 260 illustrations, sent FREE; also a formula for taking measurements by which limbs can be made and sent to all parts of the world with fit guaranteed. FIRE ALARM TELEGRAPH.

Instructions to Key Holders—Key holders, upon positive information of a fire, will unlock the box, and, if the bells or the small bell in the box is not striking, pull the hook down to the end of the slide once and let go immediately. Do not strike an alarm when the bells or the small bell in the box is striking, for in that case the alarm is already striking, and to give a second one would confuse the firemen. After giving an alarm, remain, if possible, until the steamers arrive, to direct them to the fire. If you hear no clicking sound in the box after pulling the hook, go to the next box, and give the alarm from that.

Do not give an alarm for a fire at a distance, *nor for a burning chimney*. Do not strike the alarm more than once from the same box. Be sure the box is locked before you leave it.

Bible studies are followed by all the students, and those having the ministry in view are offered special advantages for the study of theological subjects. The college is on the same footing as other New England colleges and has power to confer the ordinary academic degrees. The officers of the college are: President, Rev. Calvin E. A sixteen-page paper, half French and half English, is issued every week, the object of which is to inculcate right principles of government among the French speaking population. Home for Friendless Women and Children—These two institutions were formerly conducted under one roof at No. 62 Union street, a corporation for this purpose having been organized in 1865, by ladies interested in the reform of fallen women, the relief of the needy, and the care of destitute children. The number of inmates increased so rapidly, however, that in the course of a few years it became necessary to provide another establishment, and in 1871 the Home for Children was built on Buckingham street; since which time the house on Union street has been used for the reception of adults only, or for mothers with infants.

The institutions have continued under the direction of the same corporation, which is composed of 60 ladies, representing all the different religious societies of the city.

The government of this institution is vested in a board of managers, consisting of 30 ladies chosen annually by the corporation, from their own number, the board having power to fill their own vacancies during the year. An advisory committee of 7 gentlemen is appointed by the corporation, with whom the Board of Managers consult on all difficult or doubtful questions.

A meeting of the Board of Managers is held at the Homes alternately, once in two weeks, on Friday afternoons, notice of which is always given in the morning paper of that date.

The annual meeting of the corporation is held on the fourth Wednesday in January, the special time and place being determined by the Board of Managers. The officers for the present year are as follows: President, Mrs. Heman Smith; Vice-Presidents, Mrs. William G. Breck, Mrs. E. Brewer Smith; Clerk, Mrs. Mary L. Provident Dispensary—78 Bliss street. The object of this is to prevent pauperizing such families or individuals as, when overtaken by sickness or accident, have no recourse but to the services of the City Physician. Requests for the attendance of the City Physician must be made to the agent of the Overseers of the Poor, and the names of those requiring his services are recorded as applicants for aid. It is often desirable to prevent this as the first step to dependence, and in many cases suffering, caused by unwillingness to apply to the city, is prevented. A small charge for medicine is made. Board of Physicians: M. Calkins, M.D., Consulting Physician; E. C. Collins, M.D., W. H. Andrews, M.D., Sarah M. Wilbur, M.D., Urbane H. Flagg, M.D., O. H. Kelsey, M.D., H. W. VanAllen, M.D.; C. H. Calkins, M.D., eye and ear. On the 8th of December, 1888, an outdoor department was organized, and applicants for its aid should apply to James H. Lewis, Secretary. Persons wishing to obtain the benefits of the charity may also apply at 78 Bliss street, where the desired information may be obtained and medical advice secured.

In April, 1887, by popular subscription, the sum of $28,444.96 was raised, and in October, 1887, the city of Springfiel deeded its hospital to this corporation, thus complying with the conditions of the will of Dorcas Chapin. In November, 1887, the Hernando Fuller farm on North Chestnut street, containing about 35 acres, was purchased by the trustees, and in accordance with plans adopted May 15, 1888, the present hospital was erected thereon. First-Class Matter—Matter which is in writing, or other matter containing a written inscription in the nature of personal correspondence, and matter which is sealed against inspection, are, by their nature, and the intent of the law, first-class matter, and subject to the postage rate of two cents for

each ounce or fraction thereof. On local or drop letters, at all free delivery offices, two cents for each ounce or fraction thereof—other offices one cent.

Second-Class Matter — Mailable matter of the second-class embraces all newspapers and other periodicals, publications which are issued at stated intervals and as frequently as four times a year, and are within certain conditions. (For these conditions apply at the office.)

When sent as transient matter, by other than the publishers, one cent for each four ounces or fraction thereof.

Third-Class Matter—Mail matters of the third-class shall embrace books, circulars and other matters wholly in print; proof sheets, corrected proof sheets and manuscript copy accompanying the same, and postage shall be paid at the rate of one cent for each two ounces or fractional part thereof; and shall be fully prepaid by postage stamp affixed to said matter.

A circular is defined to be a printed letter which is being sent in identical terms to several persons. It does not lose its character as such by writing the name of the addressee or sender therein, nor by the correction of a mere typographical error in writing.

Permissible Additions to Third-Class Matter—Upon the matter of the third class, or upon the wrapper or envelope inclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation, and residence or business address preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text, and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter or the tag or label attached thereto may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for a legible address and necessary stamps.—(Act of January 20, 1888.)

Fourth-Class Matter—Includes merchandise and samples of merchandise, models, samples of ores, metals, minerals, etc., and any other matter not included in the first, second and third classes, and which is not in its form or nature liable to destroy, deface or otherwise damage the contents of the mail-bag or harm the person. Postage rate thereon, one cent for each ounce or fractional part thereof.

Permissible Writing or Printing upon or with Fourth-Class Matter—With a package of fourth-class matter prepaid at the proper rate for that class, the sender may inclose any mailable third-class matter, and may write upon the wrapper or cover thereof, or tag or label accompanying the same, his name, occupation, residence or business address, preceded by the word "from," and any marks, numbers, names or letters for purpose of description, or may print thereon the same, and any printed matter not in the nature of a personal correspondence, but there must be left on the address side or face of the package a space sufficient for a legible address and necessary stamps.—(Act of January 20, 1888.)

The tag or label with the printing or writing authorized thereon, may be attached to the whole package, or separate tags or labels, bearing the same, may be attached to each of one or more articles contained in the package.

The postage to Canada is the same as domestic postage.

The uniform fee for the issue of a postal note is three cents. A postal note will be issued at any money order office payable at any other money order office for any sum from one cent to four dollars and ninety-nine cents, but not for any sum including a fraction of a cent. No written application for a postal note is required. There is no limit to the number of postal notes that may be issued from the same office on the same day to the same person. A postal note is valid until three months from the last day of the month of issue. The postal note is made payable to bearer, and hence to whomsoever presents it. If a postal note be lost or destroyed, no duplicate can be issued; but duplicate of an invalid note (one not paid within the given time) can be procured.

The fee on any registered matter, domestic or foreign, is fixed at eight cents on each letter or parcel, to be affixed in stamps in addition to the postage. Two or more letters or parcels addressed to or intended for

the same person cannot be tied or otherwise fastened together and registered as one.

Special Delivery—A special ten cent stamp affixed to any article of mailable matter in addition to the ordinary postage insures its delivery by special carrier, immediately upon its arrival at the office of destination, between the hours of 7 a m and 11 p m at free delivery offices and 7 a m to 7 p m at other offices. But this delivery will only be made within the carrier limit at letter-carrier offices and within one mile of post offices at all other places.

THE IMPROVED

Chadwick Copying Book

TRADE-MARK.

PATENTED OCTOBER 16, 1888.

These Books are made waterproof at binding and corners, and are provided with moistening pad and oil sheets, by the use of which a number of pages can be kept moist and ready for immediate use, DISPENSING ENTIRELY WITH WATER POT, BRUSH AND WET BLOTTERS. The pad is first wet with water, then placed in book, back of twenty or more sheets, and put in press until required for copying, when sheets will be found uniformly and thoroughly moist, and VERY SUSCEPTIBLE TO ANY COPYING INK.

The back of the book being waterproof prevents the moisture from working into the binding or into leaves already copied on, and by similar treatment of corners leaves do not stick together and prevent rapid handling. The paper in these books is of extra strength, so they can be readily handled without tearing.

We make anything wanted in the line of Letter Copying Books.

Fisk Mfg. Co's Japanese Soap

Is manufactured of the purest Oils and Tallow of our own refining. It is a **PURE SOAP,** free from the many poisonous adulterations that are put into soaps at the present day to give them weight, etc. Many persons are suffering to-day on account of using impure soaps. The Japanese is adapted to the Laundry, Toilet, and Bath. It has no equal. Patented October 11, 1875, and September 18, 1877.

THE JAPANESE

FISK MANUFACTURING CO.

SPRINGFIELD, MASS.

(Registered Oct. 11, 1875.)

Fisk Manufacturing Co.'s "**Extra Pale.**" Cut full weight. Two, three, and four pound bars. We maintain for it the justly merited reputation of being the "Best and Cleanest Bar Soap in America." Most bar soaps now in the market are composed almost entirely of rosin, poisonous and filthy grease, loaded with ground marble, silicon, pipe clay, lime, soda, caustics, etc., many being like the pressed cakes, wrapped, preventing them from drying and showing their true properties.

By using such soaps you destroy the clothes — a single garment, perhaps, costing more than a yearly supply of Fisk Mfg. Co.'s Pure Soaps, which do not yellow, rot, cut or grind the clothes.

Ask your grocer for them. Let them become hard and dry before using them. Look to their clothes-saving quality, which is true economy and cheapness.
